Banbury International Community School

The work to build an additional 2 classrooms at the School began on 3rd February & just over 6 weeks later just look at the progress. All that is left to do is to concrete the floors, paint internally, make all the desk & bench sets, fit the blackboards and then the classrooms will be ready to be used.

The official opening will take place during my visit to Freetown next month. I fly out on Sunday 7th April for a week and I am so excited !

I must express my sincere thanks to Westminster Group PLC who are sponsoring my trip

I hope that when funds allow in the future we will be able to install a water harvesting system.

Doris Field Charitable Trust

I have today received a £1,000 donation from the Trust and this will fund the remaining work at the School – MANY thanks to the Trustees for their continued support which is greatly appreciated.

Desk & bench set donation

A fellow Rotarian has recently sent me a £250 donation which will fund 25 desk and bench sets. This will provide all the units for one of the newly built classrooms at the school. Many thanks for your continued support – you know who you are !

Banbury Rotary Children Singing for Children

Last November over 500 junior school children from the Banbury area took part in this event and the Sierra Leone School Project was one of the nominated causes. I have just received a donation of £635 from the event and would like to thank all the children who took part & Banbury Rotary Club for their ongoing support.

Liverpool Community School

The laboratory cupboards have been completed and are ready to be filled with all the equipment.

The purchase of the laboratory equipment for the secondary school is going well and Phase1, the absolute essential items, is nearing completion.

Kunduma Community School, Kailahun District

With the great majority of the funding now in place for both the projects at the Liverpool and Banbury Community schools I am going to focus my attention, for the immediate future, to the Kunduma Community School. Fayah, my "man on the ground" in Freetown, attended the school as a child and I want to support the School to express my gratitude for EVERYTHING he has done to help me achieve so much at my projects in Freetown. Without his help and support over the last 12 years things would not have been as easy as they have been. He oversees all the work, I transfer funds which he allocates, he obtains estimates for projects, sends me photos, liaises with the Headteachers and when I am "in country" he is my chauffeur, my guide & most importantly a very good friend. He works voluntarily helping improve the facilities at the projects and is "Making A Real Difference" for the communities.

I will be taking pass on to some I support Thanks some supporters

some items of kit to of the communities to the Club and for their donations.
