Momoh – the latest news

It's just over a week since my last Newsletter and a LOT has happened at Momoh's new HOME.

As you can see, above, the progress is great so far

They have made enough blocks to complete the build and work to achieve this, resumes tomorrow. I have sent funds so that they can purchase the roofing materials and the steel doors and windows. We are well on track to complete the HOME before the start of the “rainy season”. You can see Momoh is excited with the progress.

Liverpool Community School

The 2 new Junior classrooms at the school are progressing really well. They are just completing all the rendering and the concreting of the floors & next week the doors and windows will be fitted. Once all that has happened the entire building will be painted and the classrooms will be ready to use before the start of the “rainy season” a real bonus!

Other news

I am currently putting together an action plan to undertake essential repairs at 4 of the schools. This will include repairs/upgrading 2 water wells, the repair of classroom furniture, the repair of the steel railings at the 6-classroom block (built 2009) All the schools understand that this will not happen overnight but is funding dependent. I am also supplying new furniture to Christian Hope School, as they have recently been assigned as an examination centre. This will mean their pupils will no longer have to travel long distances to sit their national exams and children from other local schools can take advantage of the new centre
