Kankalay School, Port Loko

Phase 1 of the building project (2 classrooms, an office, a staffroom and a store area) is nearing completion, with just the final coat of paint to go on, fit the internal ceilings and fit the classroom blackboards.

We have also begun Phase 2 of the project, to build another 2 classrooms, and the foundations are completed

To finish the 2 classrooms will cost **£6,000**, but at the moment the guys are building faster than I can fundraise. For this reason, I am launching a Crowdfunder appeal, the first time I have done this in 15 years of fundraising, during which time over **£330,000** has been generated for Sierra Leone projects, but as they say “needs must”. Here is the crowdfunder link, I would be grateful if you could spread the word by e-mail and social media.

<https://www.crowdfunder.co.uk/p/kankalay-sierra-leone>

Many thanks in anticipation of any support you can offer – together we can **“Make A Real Difference”**.
