**The page closes on Monday 12th December
EVERY £ donated goes directly to the project
and EVERY £ will “Make A Real Difference”**

Newsletter feedback

After my last Newsletter I received this e-mail from a friend & thought I would share it with you:

Sometime in December, along with millions of other “middle income” people, I am due to receive my Winter Fuel Allowance, without any reference to whether I need the help or not, and it has been supercharged by the Government to a total of £500. When challenged in Parliament, the Chancellor (don’t ask me which one; there have been so many in 2022) said that if we didn’t need the Allowance, we could give it to charity. Just to let you know that, when the £500 arrives, I shall forward the payment to Banbury Rotary’s Charity account for the Alan’s Africa fund.

Many thanks for your donation - stay warm!!!

Latest News from the classroom project

Today is day 23 of the project and the progress is amazing, especially when you remember that everything is done manually.

The roof is on, they’ve concreted all the floors and are nearing the completion of fitting the ceilings. They will then start to render the entire building, interior & exterior, and paint throughout. They will also start to make all the desk and bench sets ready for the start of the new term in January.

The builders are well on track to finish pre-Xmas!!

This project will really improve the school facilities and I know that Fayia Foday would be so proud of the latest development of the school that he was instrumental in setting up back in 2015.

ANY donations would be greatly appreciated
