The latest progress from the Westminster International Community School – the rendering is complete, the windows & doors have been fitted, & the floors concreted. They are currently fixing the ceilings and are also starting to make all the classroom furniture. In the photo below you can see the toilet block is also progressing. Also, the trenches for the second block of 2 classrooms have been dug & the concreting has been completed. We have started a campaign in the local community for the registration of children for 2023/24 academic year and we are in the process of applying to register the school to the Ministry of Education. We are organising a free Summer School, running through August, to promote the school opening in September. We have chosen a school uniform and the school motto will be “Making A Real Difference”.

The next 2 photos show donations of sports kit that have recently been made. St Mary's orphanage is in Konno Town (where we are building the school) – I am hoping to develop an ongoing partnership with them.

Susu shanty is a community I have supported since 2005. MANY sincere thanks to Oxford United for their continued support and to Orchard Vale School in Barnstaple for donating the Barclays premiership shirts.
